

JENNIFER KOVALESKI: DESIGNER ON STAFF AT ADVANTAGE HANDYMAN SERVICES

Jennifer Kovalski and Sean Castorina first met when Sean's Advantage Handyman Services Bathroom Division was remodeling three of Jennifer's bathrooms within her home.

"She had incredible ideas," Sean recalled. "Her bathrooms turned out beautifully."

"I was able to pull all of my ideas together with Sean's help," Jennifer noted.

Later, Sean found out that Jennifer was an Interior Designer, and he asked if she would work with him and his clients on future

bathroom remodels. Jennifer agreed and is now the Designer on Staff at Advantage Handyman, Charlottesville's leader in bathroom makeovers.

Jennifer holds a Bachelor's Degree in Fine Arts from the New York Institute of Technology with a specialty in Interior Design. She has worked in Charlottesville for the past 18 years.

"I have come to know and understand the Charlottesville clientele," she stated. "They know what they like, they are well informed and they are open to new ideas. The people in Charlottesville keep my job interesting and enjoyable."

"Bathrooms are one of our specialties," Sean said. "We literally do a bathroom remodel every ten days. Often, people feel overwhelmed, but Jennifer can help confirm ideas and pull people's dreams into reality. Having Jennifer on staff makes it a much smoother process.

She can help with ideas, selections and colors." Jennifer's services cost the clients nothing, and in fact, can actually save money.

First, Jennifer and her experience can keep mistakes from happening in the first place. Second, she can do wonders within a limited budget.

"Jennifer can take a reasonable budget and transform it into the highest quality bath," Sean confirmed. "In addition, the client pays no commissions to Jennifer and we never add a mark-up to the products."

Sean further explained that Advantage Handyman is not obligated to any one

provider, but rather negotiates with many top quality suppliers of products like tile, lighting and fixtures and is able to save lots of money for his clients with discounted pricing.

"When it comes to bathrooms, we believe we can provide our clients the most for their money," Sean pointed out. "With the use of our designer, our discounts and the fact that we never add mark-up, we can give our clients more for their money."

The process begins when a client contacts Advantage Handyman Services to discuss ideas, general terms and budgets. Then, Jennifer takes over. She shops with her clients, making suggestions as needed, and always mindful of budgetary restrictions. The Advantage team of skilled bathroom renovators will remodel your bath in between 7-10 days, depending on size.

"Our clients are usually very busy people. Having Jennifer available can save them time as well as money. She makes it look as though our clients spent a lot more money than they really did," noted Castorina.

Jennifer is also available to help clients with color selections with Advantage Handyman's Painting Division.

If you have a budget in mind and a completion date in mind, as well as a general idea about your bathroom remodel, call Advantage Handyman Services and let Sean Castorina and Jennifer Kovalski help turn your dreams into reality. Call 434-817-7222 or go to www.advantagehandy.com.
